

The American Revolution
"Who's The Favorite"
Activity Guide

Name: _____

Period: _____

Part 1: Cartoon

- a. Who does the smaller figure represent?

- b. Who does the larger figure represent? Why is this figure laughing?

- c. What does the size of the larger figure represent?

- d. What is the meaning of this cartoon?

Part 2: Compare, Contrast, Evaluate, and Predict

For each area of comparison:

- a. First, decide who had the advantage. Make a "check" or an X in the space provided. If you believe that neither side had an advantage in an area, leave the spaces blank.

- b. Second, decide how much of an advantage each item was.
 - If you thought it was only a small advantage, do nothing.
 - If you think it was a big advantage, make a second "check" or X next to the first one.
 - If you think it was an overwhelming advantage, put two extra "checks" or Xs next to the first one!

- c. Last, pretend you have no prior knowledge of U.S. history. The only information you have is the chart you have just completed. Based solely on that chart, if you were an observer in 1775, who would you have predicted would win the war between England and her American colonies. Write a paragraph to state and explain your prediction.

Advantage: Colonists	Area of Comparison	Advantage: British
	Support of the People	
	Population	
	Army	
	Navy	
	Officers	
	Weapons, Supplies, and Transportation	
	Familiarity With The Land	
	Amount of Wealth	
	Government	
	Amount of Manufacturing	
	Reason for Fighting	
	TOTAL
